28. Use the function table to find the value of y when x = 1

Write the equation that goes along with the function:

\mathbf{X}_{i}	y
-2	-9
-1	5
0	-1
1	?

- a. 4
- b. 12

- c. 3
- 29. Use the function table to find the value of y when x = 2

Write the equation that goes along with the function:

X	y
-1	-2
0	0
1	2
2	?

- a. 8
- b. 4

- c. 5
- 30. Use the function table to find the value of y when x = 2

Write the equation that goes along with the function:

X	У
-1	1
0	0
1	-1
2.	7

- a. -1
- b. 2

c. -2

_ 31. Use the function table to find the value of y when x = 3

Write the equation that goes along with the function:

	$y = \sum_{i=1}^{n} \frac{1}{i} \sum_{j=1}^{n} \frac{1}{i} $
0	2
1	1
2	0
3	?

- a. −1 .
- h 0

- c. 1
- 32. Use the function table to find the value of y when x = 3

Write the equation that goes along with the function:

X	y
0	6
1	10
2	14
3	?

- a. 72
- b. 19

- c. 18
- 33. Use the function table to find the value of y when x = 1

Write the equation that goes along with the function:

X	y
-2	5
-1	2
0	-1
1	?

- a. -3
- b. -4

c. 12
